Congress President's Welcome Note

Dear Japanese and German friends and colleagues,

It is our pleasure to warmly welcome you to the 13th Meeting of the German-Japanese Society of Dermatology (GJSD) near the magnificent and traditional city of Munich on 13th – 15th June 2018.

The German-Japanese Society of Dermatology was founded 30 years ago, in 1987, highlighting the old tradition of German-Japanese exchange in dermatology and medicine. Besides presenting an inspiring and outstanding scientific programme, meetings of the GJSD have also always been social highlights to enhance old friendships and form new ones and to tighten the junctions between Japanese and German dermatologists.

We are very grateful to host the 2018 meeting in the traditional and magnificent region of lake Tegernsee in the Bavarian Alps in southern Germany. The lake is the centre of a popular recreation area 50 kilometres (31 mi) south-east of Munich.

The buildings of the former Benedictine monastery of Tegernsee Abbey lie on the banks of the lake. Now in private hands, they are now known as Schloss Tegernsee.

Additionally, we are looking forward to an exceptional scientific program with excellent state-of-the-art talks on important scientific developments in dermatology given by outstanding and honorable scientists from Germany and Japan. Travel scholarships are provided to young Japanese investigators by the German Dermatological Association to facilitate their travel to Germany. This will foster the interaction between young Japanese and young German dermatologists even further.

We wish you a memorable educational experience and a truly Bavarian welcome!

Prof. Dr. med. Dr. h.c. mult. Thomas Ruzicka
Congress President
